- So we can easily add these images to the webpage if selected for images of the month, please try to do the following:

 - File size per image no larger than 1MB and in jpeg format

OPTIONAL Descriptive information for each *critique image* should be as follows:

Critique 1							
Critique 2							
Critique 3							

Exposure data should, for example, include f/stop, shutter speed, ISO, any exposure compensation, and any filter information.

Post processing enhancements should include only those things beyond simply cropping, sharpening, noise reduction, etc. such as HDR, panorama work, color enhancements, exposure changes, etc.

If you can put the image data (if you choose to include it) **as text** in the body of the email as opposed to an attached word or excel file it would be appreciated! Makes life easier if everyone does the same thing.
